Treasurer

June 21, 2021

To: The Flagler County Board of Commissioners

The East Flagler Mosquito Control District is prepared to embark upon an expansion of services to areas outside our current District boundaries. We seek your support in the planning process of District expansion. Provided in this letter and the attached map are details for a three-phased expansion with the first phase of expansion to be completed by early 2022.

- July 12 County Commission will consider expansion planning proposal
 - Phase 1 District Boundary expansion to CSX Rail line at Palm Coast and to the West and to the South including Plantation Bay down to US 1
 - Phase 2 Neoga lake and Old Brick Township PUDs in Palm Coast and the Hunter Ridge PUD in 2-3 years
 - Phase 3 Additional areas in 3-5 years
- Action Plan Phase 1
 - Estimated latest completion date early 2022
 - Send mailer to residents of Sawmill Estates, Korona, Eagle Rock and Plantation Bay informing them of our intent to expand and the date of a workshop discuss the issue with the public
 - Hold Mosquito Control workshop to engage with public in early August
 - Hold Vote on Approval as early as the Regular Board Meeting in August
 - Prepare legal documents to revise District Charter
 - Final Step is to request County approval for expansion

Since the District was formed in 1952, we have worked year-round to suppress the population of disease carrying and pestiferous mosquitoes which can be abundant any time of year in our subtropical environment. The District is a technological leader, employing the use of helicopters for over 30 years, the first and only program in Central Florida to treat for mosquitoes using unmanned aerial systems (UAS), and we are the first to have adopted multiple state of the art technologies to monitor mosquito breeding sites. I invite each of you to tour our facility to see first-hand the top-notch operation in Flagler County.

Sincerely,

Julius "Jules" Kwiatkowski
Chairman
